**I. Background and Rationale**

In the ever-evolving landscape of the business world and the intense competition within the industry, students pursuing a Bachelor's degree in Information Systems (IS) are encouraged to develop strong management and critical business process skills. These skills are crucial for their success in this dynamic field.

The Information Systems Student Organization (ISSO) holds official accreditation and recognition at Camarines Norte State College. The organization's objective is to predispose in extent of Business Management, Change Management, and System Management or to incline all Information Systems Students in the field of Technology and Skills development or to evaluate a deeper understanding of what is Information Systems—prominent to all this causes ISSO officials envisions to empowering BSIS Students to excel in the global digital evolution and business landscapes. Aligned with the organization's mission, vision is to inspire IS students to view the future from a unique perspective, motivating them to aspire to greatness and confront the challenges of a highly competitive industry head-on.

The elected officials of the Information Systems Student Organization (ISSO) for the Academic Year 2023-2024 are committed to providing IS students—who are specializing in Information Systems—with valuable insights into the diverse opportunities available within the program. To guide these students on an exciting journey filled with endless possibilities, leading to both success and continuous learning. These opportunities are not merely handed to students by the world; rather, they are unlocked and explored by the students themselves. The ISSO recognizes the importance of harnessing all available resources and fostering an environment where students can make groundbreaking discoveries that will last a lifetime.

ISSO will initiate the "EmpowerIS: Financial Management and Entrepreneurship Seminar." This seminar is thoughtfully divided into various segments and topics designed to enhance the students' knowledge and contribute to their growth. Moreover, the officers of the ISSO have also curated a selection of entertainment options to kickstart this event with enthusiasm. The seminar serves as a comprehensive resource for IS students, equipping them with the skills and knowledge necessary to thrive in the Information Systems field. By focusing on various aspects of management and critical business processes, students can gain a holistic understanding of how to navigate the complexities of the business world.

ISSO recognizes the importance of balance, and by incorporating entertaining elements into the seminar, they aim to create a welcoming and engaging atmosphere that fosters both personal and professional development. This holistic approach ensures that students are not only well-prepared for their academic and career pursuits but also encouraged to enjoy the journey of exploration and growth.
